Grist

Crock013

Co-release with [Ad Noiseam](#) – [Buy 12" or CD now](#)

“Grist”, the debut full-length by Drumcorps features 11 tracks of amen blast beats, guitar-wash-screams, and plenty of musical tension. Quick and decisive, “Grist” is quite possibly the definitive breakcore/grindcore hybrid album of its kind. Far from just a typical grindcore mash-up mix, producer Aaron Spectre plays many of the riffs and tweaks the source material to near impossible levels, all to make a passionate emotional attack on the listener. The intensity of his live shows has made him increasingly in demand, destroying parties from Tokyo to London. He’s at the top of his game, and “Grist” proves it.
