 I just ordered one of the "Birthday Cake" presses. As a whole it looks rather great. Only heard one of the tunes but its pretty fucking savage.

 Son of a .....

Why all the good records/limited stuff gotta come out all at once. Drumcorps has a record coming out on peaceoff in the future also, can't wait for that too.

 Yeah, a non-breakcore-fan friend of mine actually linked me to this a couple days ago. Sounds awesome from what I heard. 😊

Any likelihood of an mp3 release? Gay face over here still doesn't own any decks.

I must be blind, I can't find the button to hear a sample. Or are they expecting me to buy a record without hearing it? That's a bit like buying perfume without smelling it.

the records themselves look utterly vile..!
