When I **saw Animosity play in Berlin** last year, I ran into **Drumcorps** (aka Aaron Spectre). He told me that **Animosity** had commissioned him to remix songs from their latest record, *Animal* (Metal Blade, 2007). This excited me to no end. Animosity is one of my favorite bands, and Drumcorps is the only breakcore artist I can stand (partially because he samples Botch and Converge). The results are out – three remixes, each guaranteed to raise your blood pressure. Drumcorps adds his trademark pulverizing drill ‘n’ bass beats, gleefully chopping up Amen breaks and tossing them into a digital blender. The remixes are surprisingly straightforward, not altering vocals or guitars much, though the final one has rather psychedelic edits. Though purists might frown upon such a pairing, it makes complete sense – Animosity’s end-times message run through Drumcorps’ turn-knobs-to-infinity production. It’s harsh, dirty, and best of all, free. Download the EP in 320 kbps MP3 or FLAC [here](#).

The release also comes in some of the most mindblowingly eye-watering vinyl ever made: 10” splatter vinyl, 4 varieties (“Birthday Cake,” “Cupcake,” “Wealthy Eggplant,” and “Moldy Cheese”), with a foil-stamped B-side and a hand-screenprinted, hand-letterpressed jacket. For pictures and more info, go [here](#).

Finally, look out for Drumcorps’ remix (alongside Danny Lohner, Scott Hull, Phillip Cope, and Ulver) in the 3rd installment of the 5-volume **Genghis Tron remixes**. Volume 1 is in stores next week, featuring remixes by Steve Moore, Justin K. Broadrick, Eluvium, and that Rob Crow fellow we discussed yesterday.
