One of my favourite releases this year so far, it's a Drumcorps remix EP of Animosity... can be downloaded 320/Flac from here for free

The vinyl pressing is awesome, never seen anything like it

sequenced & quantized beats  
 chopped up amen breaks  
 death metal grunting  
 generic guitar riffs  
 digital sounding mix

perfectly inoffensive

Don't know, but my copy kicks ass, I'd recommend getting it if you can find it. Immense attention to detail.

this release wasn't really breakcore at all, but that African American drumcorps is doing his thing, props to him.

this album is good if you are a metal fan, kinda stale if you are not
