codeorangetoth with a diverse lineup of discordant artists and a new live approach - we want our upcoming US tour supporting our forthcoming record "Forever" to be a unique experience. that's why our guitarist Shade with help from @drumcorps has created an albums worth of original music - that will play in between all of the bands - to soundtrack these painful evenings. we will be selling the tracks on a limited tape only available on this tour. see you soon. #codeorange #itsalmostforever
